# GOpass

The application that provides a new way of delivering gym, food or educational benefits to employees in a digital, secure way without having to use cash.

Benefits at the palm of your hand
GOpass increases the satisfaction and productivity of employees, solving the complexities of benefits distribution and control.

Each company is unique and we know it
GOpass is customizable for each company, providing the freedom to choose the different gym, food or educational institutions.
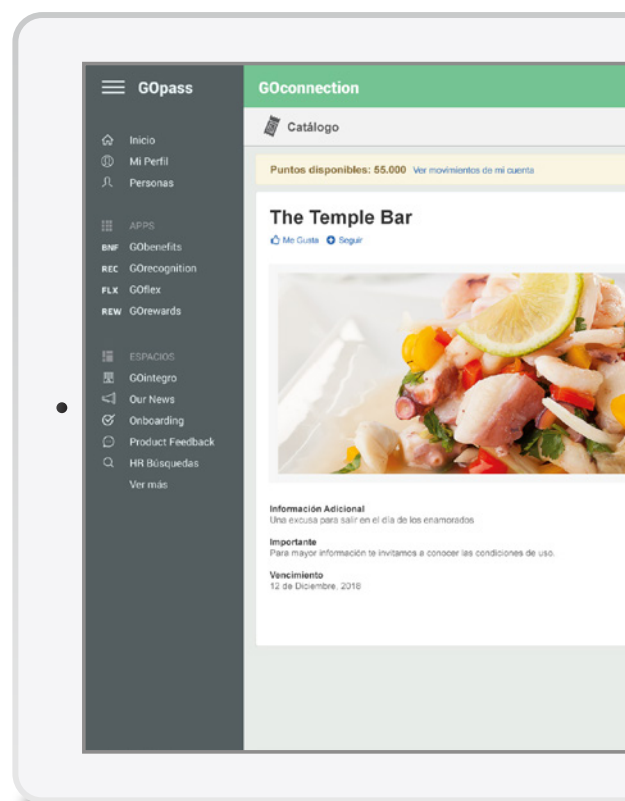

Configurable
GOpass allows you to configure different amounts to be used by each employee, the exclusive areas of use and even the hours where they can exchange their GOpass.

Easy to use
We ensure a completely friendly and intuitive experience, both for the administrators and employees. Through a unique code, the collaborator can redeem their GOpass at the supplier's point of sale

gointegro.com

Functionalities to enhance the use of benefits

Access to the online account
Employees will have a fixed amount defined by the company to use their GOpass whenever they want. They will also be able to view available points and redeem them when convenient.
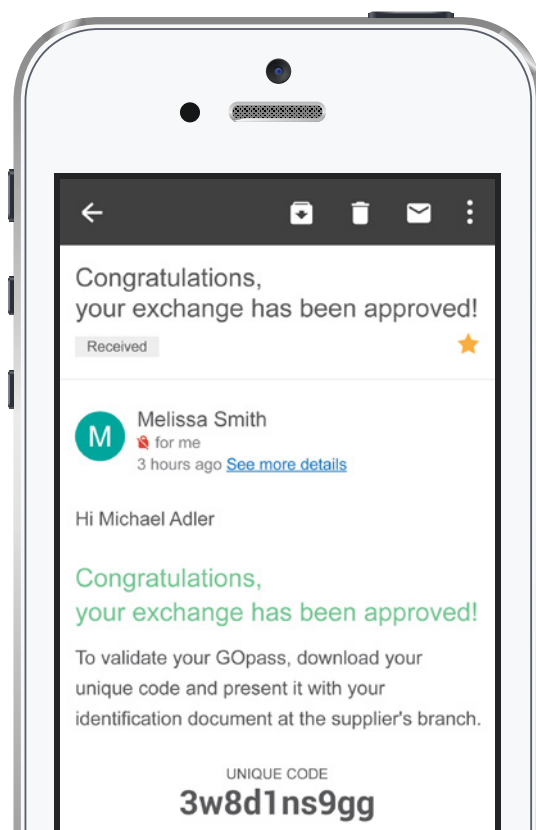

Consultation service
GOintegro has a Customer Service Center to answer all employee queries.

More security
Employees can use their GOpass without the need of cash or credit cards, feeling free to use the benefit at any time and place in a simple and safe way.

Analytics and reports
GOpass provides statistics and reports on the use of the benefits, simplifying task management and analysis of the Human Resources area.

Congratulations,
your exchange has been approved!

Hi Michael Adler

Congratulations,
your exchange has been approved!

To validate your GOpass, download your unique code and present it with your identification document at the supplier's branch.

UNIQUE CODE
3w8d1ns9gg

Learn about the mechanics

Employees access the GOpass application from where they can exchange their points and obtain a code to make use of the selected benefit.

Automatically the collaborator receives an email with a unique code that they can print or download on their cell phone.

Employees approach the provider of their choice and present the GOpass code together with their identity document to redeem the GOpass.

56*** The provider validates the code by entering it into the GOpass digital POS.

$ GOintegro bills the total cost of all codes redeemed during the period.

More than 500 companies, from 100 to 100,000 employees,
use GOintegro day by day to boost organizations Digital Transformation.
